Well, somebody had to start this. I predict that coach Sampson, will be no longer associated with Indiana by the end of February. If not, we are in for some severe penalties. Probable loss of scholarships and being banned from post-season play for at least a year or two. If we handle it swiftly and sternly, maybe the NCAA will see that we are taking these infractions seriously. Keep your eyes out for some of our recruits to start looking elsewhere to attend after all of this. Thank you and Bless God!!!
